Coverpro Notebook 1

Cathy Martino Fall Gathering 2016

Brief Description of Class: Come and master the Coverpro in this notebook class. Students will practice all the basics, make samples of all the stitches that the machine does, how to thread, how to remove the fabric from the machine, learn the accessory feet available and practice hands on with them, and then play with some of the extras using different settings and threads to take the machine to the next level. Students will go home with how to sheets with all the samples done for future reference.
