PRE-CLASS PREPARATION

Please, note: The topper is slightly smaller (about 34 inches) than the pattern. Maximum hoop size required this slight adjustment. At the most, in the two day retreat, you can expect to finish all of the embroidery hoopings. You will need to complete the project on your own or sign up for a Machine Embroidery Software Cafe if you require help.

Please take the time to spray and iron all fabrics with Mary Ellen's Unscented Best Press before class. Spray and iron twice, to ensure fabrics are crisp and shrinkage is removed.

Do not trace any of the appliqué patterns onto your fusible web. This is not necessary when completing a project that is a "trim in place appliqué design". Purchase of the pattern is a requirement for copy write reasons.
