

Janome MC8900QCP

This machine was purchased at Snip and Stitch and has always been serviced here. It was serviced just before Christmas 2021 and has not been used since.

The machine comes with all of the original accessories as well as the Janome table and insert specific to this machine.

I am also including the following optional accessories:

- Janome Magnifier (20/40/60)
- Ultra-glide Needle Plate and Foot
- Janome Ruler Foot
- Blue dot bobbin case for free motion quilting

With the large throat space, this machine is excellent for free motion and ruler quilting. The large portable extension table allows you to take it to class.

The original manual and instructional DVD are included, but the manual can be viewed online by entering Janome 8900 Manual in the search engine for additional details regarding the machine.

Price: \$1500.00
